ANURAG ASHU

Kolkata, India | +91 6294560799 | anuragjha724@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

High-performing Artificial Intelligence & Machine Learning undergraduate with hands-on experience engineering autonomous computer vision pipelines, fine-tuning Transformer architectures, and deploying end-to-end intelligent web systems. Proven success achieving a 0.00% tracking switch rate with YOLOv11x/ByteTrack, sub-0.10 px homography calibration, and scalable cloud deployments, backed by industry certifications in Agentic AI and Generative AI.

TECHNICAL SKILLS

- **Languages:** Python, C/C++, SQL, JavaScript, TypeScript
- **ML & Deep Learning:** PyTorch, TensorFlow, Scikit-Learn, XGBoost, OpenCV, torchvision, ultralytics (YOLOv11x), Supervision
- **GenAI & Agentic AI:** Model Context Protocol (MCP), Anthropic Claude API, Hugging Face Transformers, PEFT/LoRA, Agentic Workflows
- **Data Analytics & Math:** Pandas, NumPy, SciPy, Exploratory Data Analysis (EDA), Data Preprocessing, Matplotlib, Seaborn, Plotly, Parquet
- **Tools & Cloud:** Docker, Git, GitHub, Streamlit Cloud, Vercel, REST APIs, Linux/Bash, Jupyter Notebooks

EXPERIENCE & INTERNSHIPS

Magillabs Technology Private Limited | Data Scientist Intern | Remote ***(Jun 2026 – Jul 2026)***

- Cleaned and preprocessed multi-source enterprise datasets, executing Exploratory Data Analysis (EDA) to detect statistical distributions, feature correlations, and data anomalies.
- Built predictive machine learning models to support data-driven decision-making and created interactive reporting dashboards for internal metric communication.

Autoikigai | Operations Manager | Remote (Texas, US) ***(May 2025 – Present)***

- Spearheaded workflow automation and system integration initiatives across insurance agency clients, eliminating 20+ hours per week of repetitive manual administrative overhead.
- Engineered automated data pipelines integrating directly with core Agency Management Systems (AMS360, Applied Epic, EZLynx, HawkSoft) for streamlined COI requests and client intake.

InAmigos Foundation | Data Analytics Intern | Remote ***(Jun 2026)***

- Conducted data analytics and aggregation for organizational metrics, producing structured reports; honored with Certificate of Appreciation for outstanding commitment.

KEY PROJECTS

Autonomous Football Computer Vision & Tactical Analytics [GitHub] [Live Demo]

Python, PyTorch, YOLOv11x, ByteTrack, OpenCV, Planar Homography, Voronoi, Docker, Vercel

- Engineered an autonomous broadcast video analytics pipeline utilizing YOLOv11x and ByteTrack, achieving 0.00% ID switch rate and 0.912 mAP50 across severe multi-player occlusions.
- Formulated metric planar pitch homography (<0.10 px error) projecting 1080p footage to 2D FIFA coordinates (105m × 68m) with dynamic Voronoi space partitions, deployed via Docker/Vercel at ~30 FPS.

Custom Sentiment Analysis Dashboard (Fine-Tuned Transformer) [GitHub] [Live Demo]

Python, Hugging Face Transformers, DistilBERT, PyTorch, Streamlit, Plotly, Pandas

- Fine-tuned a domain-adapted DistilBERT sequence classification model (safetensors) and deployed serialized weights directly to Hugging Face Model Hub (Anurag4848/sentiment-analysis-custom).
- Architected a real-time Streamlit dashboard featuring interactive Plotly visual telemetry, confidence gauges, and an automated batch processing pipeline for bulk CSV/Excel sentiment evaluation.

Context-Aware Financial Sentiment Analyzer [GitHub] [Live Demo]

Python, DistilRoBERTa, Hugging Face, PyTorch, Streamlit, Pandas

- Implemented a specialized financial NLP pipeline using DistilRoBERTa to contextualize complex market vernacular and eliminate business terminology false-negatives.
- Integrated automated Financial PhraseBank dataset ingestion with ISO-8859-1 encoding handles and dynamic batch size evaluation (1–50 rows), deployed live on Streamlit Cloud.

Calories Burnt Prediction & Biometric Analytics App [GitHub]

Python, XGBoost Regressor, Scikit-Learn, Pandas, NumPy, Streamlit, Matplotlib

- Trained a high-accuracy XGBoost Regressor on multi-dimensional physiological and workout telemetry to forecast exercise calorie expenditure with sub-50ms inference latency.
- Constructed a multi-parameter Streamlit web interface featuring integrated BMI computation, metabolic activity stratification, and downloadable prediction summary reports.

EDUCATION

Adamas University | Kolkata, West Bengal, India ***Expected 2027***

- Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine Learning (AIML) | **CGPA: 8.08 / 10.0** (up to 6th semester)

VERIFIED CERTIFICATIONS

- **Oracle Certified Foundations Associate – Agentic AI** (Oracle University, Aug 2026 | ID: 330864404AAI26OFA)
- **Gen AI Tools Assessment (NSQF Level 5, Gold Category – 94%)** (IT-ITeS NASSCOM & Govt. of India, Sep 2026 | ID: FSP/2026/9/10375254)
- **Model Context Protocol: Advanced Topics** (Anthropic, 2026 | ID: gn63wcnfm7nf) | **Claude with the Anthropic API** (Anthropic, 2026)
- **Introduction to Large Language Models** (Google Cloud Badge, 2026) | **Elements of AI (2 ECTS)** (Univ. of Helsinki, Aug 2026)
- **NLP & Text Mining** (Simplilearn, Aug 2026 | ID: 10637608) | **Data Science with Python** (MindLuster, Aug 2026 | ID: 54d049fa)
